

Hello Everyone!

It's Saturday, Memorial Day weekend, and it feels more like July 4th weekend; Sunny and warm! It's been sunny and warm all week! The guys continued roping; they are up to 169 steers branded now. Only 51 left!

Each morning was spent working on horsemanship, and afternoons spent moving cattle around; branded ones to our north pastures, unbranded ones to Shayne's pasture. Rodeering was learned by all and after many hours practicing on our fresh cattle at the Wallace Pasture, the group had circles and straight lines figured out!

The group this week was determined to finish every job we set out before them no matter how many hours they spent in the saddle. They gathered cattle, moved cattle, sorted cattle, and branded cattle. Needless to say we all slept VERY well each night!

The grass is finally greening up so it may be that next week we can start turning the cattle out on the first pasture of our summer range. Willie and Chuck have been making their way around each pasture fixing fences. They say it sure looks pretty out there!

JJ has been using the barbecue grill regularly for dinners, and with Darath, our breakfast cook, making scrumptious breakfasts and desserts, the aromas wafting through the air keep us on time to each meal! The two are keeping us all well fed!

Well we wish everyone safe journeys on this holiday weekend. Enjoy great friends, family, good food, and **sunshine.**
